ance Notes on Codes and Abbreviations" appearing at the begin-
ning of each regular issue of the PCT Gazette.

(54) Title: ONE PART RECEPTACLE FOR A FASTENER

(57) Abstract: A one part receptacle for a fastener for insertion, in
use, into a hole in a receiving component. The receptacle comprises
a base with legs, at least one of the legs retaining the receptacle on
a component in use. The base includes a hole for engaging, in use,
with the fastener, and at least one leg is shaped to form a compli-
ant mechanism which provides a compliant retaining force in the
direction of insertion of the fastener. In use, the receptacle is in-
serted into the hole and retained thereon and provides compliance
between the component on which it is retained and a second com-
ponent attached thereto via the receptacle and fastener.
